SUMMARY:

I am a front-end developer with expertise in **React Development**. I am committed to staying updated with the latest trends and technologies in front-end development to deliver exceptional user experiences and drive business growth. I seek an opportunity to utilize my skills and creativity to contribute meaningfully to a forward-thinking organization.

TECHNICAL SKILLS:

- ❖ Languages- **JavaScript, HTML5, CSS**
- ❖ Framework- **Tailwind/ Bootstrap**
- ❖ Libraries- **React.js**
- ❖ Version Control- **Git, GitHub, Vercel**

EXPERIENCE:

Udey Tech (Janakpur,Nepal)

As a React developer

January 2023 - June 2023

Developed and maintained web applications using React.js, Implemented responsive UI components with Material-UI and custom CSS. Optimized application performance by utilizing code-splitting and lazy loading. Collaborated with backend developers to integrate RESTful APIs.

Cyberpur (Lokbidhi)

As a Frontend developer

In 2022

I've worked as a frontend developer and made small projects, such as creating personal web pages and simple interactive elements using HTML, CSS, Bootstrap, Tailwind, and JavaScript

EDUCATION:

BSc. in Computer Science and Information Technology (BSc.CSIT)

Tribhuvan University (TU)

Graduated: In 2023
